SIGMA SET TO REOPEN ON SCHEDULE ORIGINAL ELEGANCE RESTORED

Extensive renovation of the Sigma Chapter house, going on at a feverish pace all spring and summer, is nearly finished. Reopening took place on schedule, September 3. Nearly every area of the house, originally built in 1925-26, has been upgraded, including new plumbing, wiring, windows, doors, insulation and many structural changes and amenities. As one alumnus said after visiting 1601 recently, "It's absolutely gorgeous. It's inspiring just being here."

Much of the interior will look very different to most brothers, especially the large living room, foyer, first-floor suite, bathrooms and some study rooms. But, contractor and brother Jack Moorhead '63 was adamant about preserving the original design and character of the small living room. High quality craftsmanship has returned the ceiling to its original elegance, and the fraternity crest above the fireplace has been exquisitely restored by a local artist.

"It's absolutely gorgeous. It's inspiring just being here."

Outside, a new north-side terrace has been added for warm weather activities. And, landscaping and a hydroseeded lawn will add beauty to the classic exterior design of the house, which also has been preserved.

Safety features, such as enclosed interior stairwells and a sprinkler system, were designed in. Fresh paint inside and out covers the walls and house trim, and new carpet was installed to replace the old. New main floor and study room furniture has been delayed pending an increase in alumni pledges and payments.

We welcome you back to 1601 this fall...

A fully operational kitchen with cook and meal crew will be re-instituted at Sigma later this fall, after having been discontinued for many years. Kitchen equipment has been ordered and is expected around October 1. New dining room furniture also is on order and will arrive soon.

Project costs including renovation, landscaping, architectural and fund-raising fees, etc., eventually will total \$1.1 million. Alumni and undergraduates alike have worked long and hard to fulfill the dreams so many brothers have had for our aging chapter house. We welcome you back to 1601 this fall to see how the young men of Lambda Chi Alpha, now living in the premier facility on campus, are "restoring the pride."

FUND-RAISING STILL NEEDS HELP

The \$1.1 million renovation project is nearly completed with Sigma alumni pledging over \$700,000 so far to make the dream come true. These gifts represent extraordinary generosity on the parts of many brothers.

Unfortunately, more alumni financial support is needed to ensure an appropriate size mortgage, to buy main floor furniture, and to build a financial cushion to withstand membership ups and downs which may occur in the decades ahead.

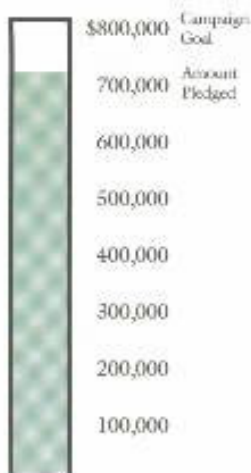

"... Sigma needs your help to finish the project."

Our pledge goal remains \$800,000. Alumni gifts are generally paid over five years, with typical pledges so far in excess of \$2,500, or more than \$500 per year. Sigma needs your help to finish the project. Gifts of \$5,000 or more are tax deductible.

Payments on pledges already made have been flowing in steadily, but a few brothers are behind or have yet to make their initial payments. Reminders have been sent in hopes of encouraging these brothers to do as much as they can as soon as they can.

You still can make a generous pledge today by writing to Campaigns for Sigma, P.O. Box 2019, Ann Arbor, MI 48106-2019.
